## PROVEN PLAYER AND TEAM DEVELOPMENT CURRICULUM

The purpose of our Ohio Extreme is to provide higher levels of training and competition. The program is for boys and girls ages 7 through 14. Premier teams and players will play in competitive leagues and tournaments. Players/teams will be directed by current and former college players/coaches and head coaches will be licensed coaches who will follow a player development curriculum designed to maximize each player's potential. We have partnered up with US Youth Soccer and the United Soccer Coaches Association to develop a program that will greatly benefit all players.

Ohio Extreme SC players are growing up to become all-star high school players and many go on to play soccer in college.
